

Blue Bear Tax – VPN Connection Instructions

1. First-Time Connection Setup

- If this is your first time connecting to the network, please contact ITGuys or submit a support ticket. We will assist with the installation of SonicWall NetExtender and provide the necessary login credentials.

2. Connecting with Existing Setup

- If SonicWall NetExtender is already installed, simply open the application and click Connect to access the network.

The screenshot shows the SonicWall NetExtender application window. The title bar reads "NetExtender". The main window displays the SonicWall logo and the text "NetExtender". Below this is a large grey bar. The central part of the window contains a login form with the following fields:

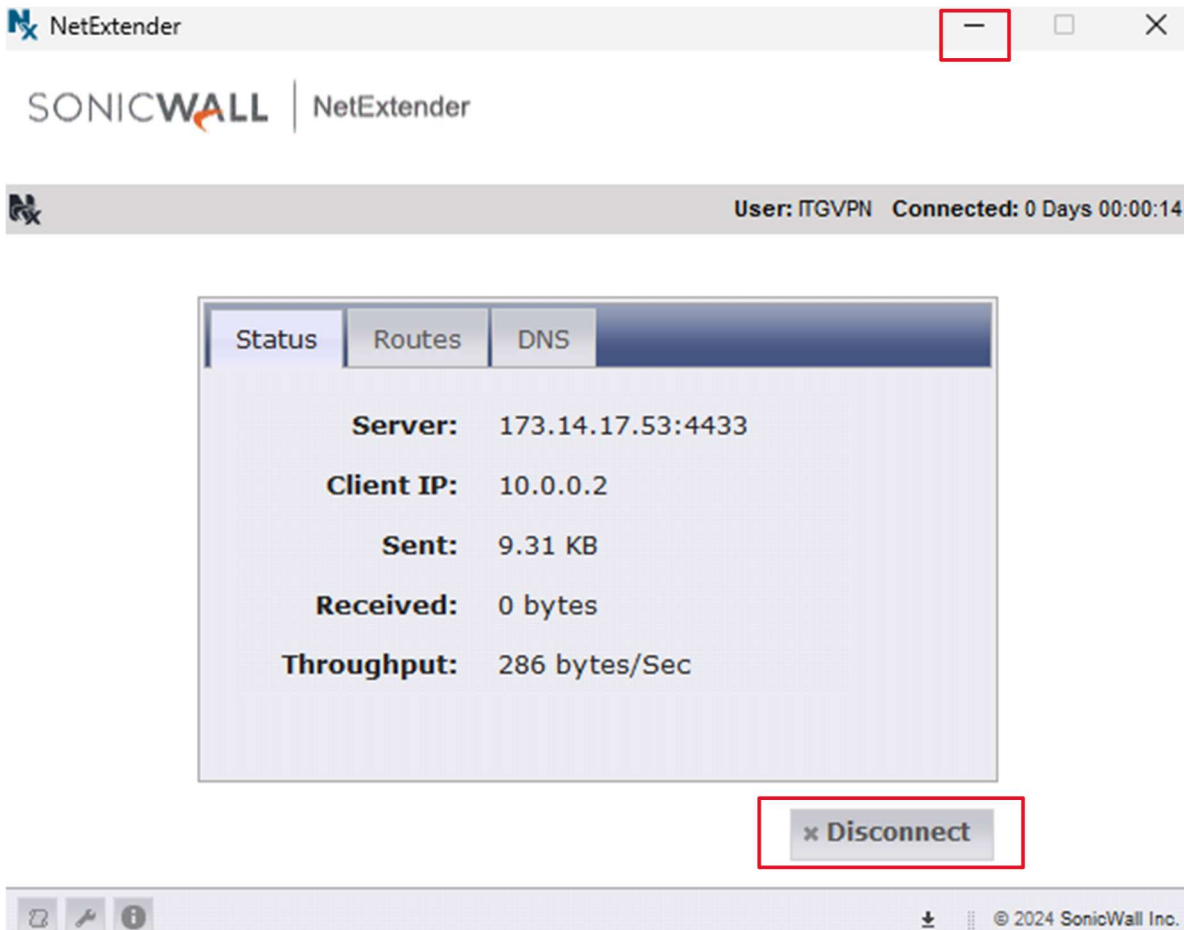

- Server: 173.14.17.53:4433
- Username: ITGVPN
- Password: [Redacted]
- Domain: localDomain

Below the form is a "Connect" button with a double-headed arrow icon. At the bottom of the form area is a checkbox labeled "Save user name & password if server allows". The bottom of the window shows a taskbar with icons for help, settings, and information, and a copyright notice: "© 2024 SonicWall Inc."

3. If it appears, Click “Always Trust” to the Certificate screen

4. Once the VPN connection is established, you'll have access to your network files and directories

5. During your session, you can minimize this screen while you work.

6. To disconnect the session, click the “Disconnect” button.
